Data Source: Astoria Portfolio Advisors, Orion, Fundpeak, and TopSheets. Data as of March 31, 2025. The performance is based on the composite performance for all accounts invested in the Dividend Growers Portfolio. Please see the disclaimers below for more details regarding performance calculations. Growth of $10,000 shown in the chart represents the cumulative total return of the Astoria Portfolio composite since inception, net of fees. Investment return and principal value of an investment with Astoria Portfolios will fluctuate so that an investor's investment when redeemed may be worth more or less than their original cost. All risk/return statistics shown are calculated on an annualized basis since inception aside from Correlation, Beta, and R Square. The benchmark is used as a reference data set for the calculation of beta. Portfolio Yield is calculated on a trailing twelve months basis. For trailing returns, YTD and cumulative numbers are not annualized. All other numbers are annualized. As with any investment strategy, there is a potential for profit as well as the possibility of loss. Net Returns incorporate 15bps annualized management fee. Prior to January 1, 2021, the annualized management fee was 50bps. The benchmark for the Dividend Growers Portfolio is 100% S&P 500 Dividend Aristocrats Index and is rebalanced monthly.
