

MARCH 2025

Enhanced Income ETF Portfolio

INVESTMENT OBJECTIVE & STRATEGY

Astoria's Enhanced Income Strategy aims to capture equity and fixed income securities with above average yields.

It will maintain approximately 20% in equities and 80% in fixed income.

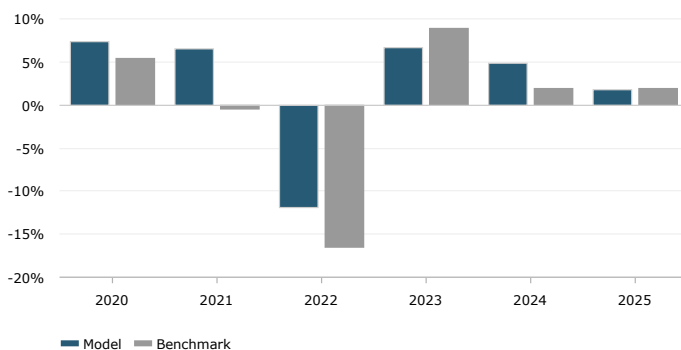

Our benchmark is 20% MSCI All Country World Index and 80% Bloomberg US Aggregate Bond Index and is rebalanced monthly.

There are generally one or two strategic rebalances per year assuming normal market conditions.

Data Source: Astoria Portfolio Advisors, Orion, Fundpeak, and TopSheets. Data as of March 31, 2025. The performance is based on the composite performance for all accounts invested in the Enhanced Income Model. Please see the disclaimers below for more details regarding performance calculations. Growth of \$10,000 shown in the chart represents the cumulative total return of the Astoria Portfolio composite since inception, net of fees. Investment return and principal value of an investment with Astoria Portfolios will fluctuate so that an investor's investment when redeemed may be worth more or less than their original cost. All risk/return statistics shown are calculated on an annualized basis since inception aside from Correlation, Beta, and R Square. The benchmark is used as a reference data set for the calculation of beta. Portfolio Yield is calculated on a trailing twelve months basis. For trailing returns, YTD and cumulative numbers are not annualized. All other numbers are annualized. As with any investment strategy, there is a potential for profit as well as the possibility of loss. Net Returns incorporate 15bps annualized management fee. The benchmark for the Enhanced Income Model is 20% MSCI All Country World Index and 80% Bloomberg US Aggregate Bond Index and is rebalanced monthly. Since inception refers to October 2020.

Warranties & Disclaimers

For Advisor use only. There are no warranties implied. Astoria Portfolio Advisors LLC is an SEC registered investment adviser located in New York. Astoria Portfolio Advisors LLC may only transact business in those states in which it is registered or qualifies for an exemption or exclusion from registration requirements.

Information presented herein is for educational purposes only and does not intend to make an offer or solicitation for the sale or purchase of any specific securities, investments, or investment strategies. Investments involve risk and unless otherwise stated, are not guaranteed. Readers of the information contained on this Performance Summary, should be aware that any action taken by the viewer/reader based on this information is taken at their own risk. This information does not address individual situations and should not be construed or viewed as any typed of individual or group recommendation.

The performance represents the composite performance for accounts invested in the Enhanced Income Model. The composite performance is shown net of the model advisory fee of 0.15% charged by Astoria Portfolio Advisors. The composite performance results are net of Astoria Portfolio Advisors' fee and does not include any additional advisory fees charged by advisors employing Astoria's models.

Any additional fees charged by an advisor will reduce an investor's return. Performance results shown include the reinvestment of dividends and interest on cash balances where applicable. The data used to calculate the model performance was obtained from sources deemed reliable and then organized and presented by Astoria Portfolio Advisors. The performance calculations have not been audited by any third party. Actual performance of client portfolios may differ materially due to the timing related to additional client deposits or withdrawals and the actual deployment and investment of a client portfolio, the reinvestment of dividends, the length of time various positions is held, the client's objectives and restrictions, and fees and expenses incurred by any specific individual portfolio.

Benchmark: The Enhanced Income Model performance results shown are compared to the performance of 20% MSCI All Country World Index and 80% Bloomberg US Aggregate Bond Index. Prior to January 2025, the benchmark was 20% MSCI All Country World Index and 80% Bloomberg Global Aggregate Bond Index. Return Comparison: Both the MSCI All Country World Index and the Bloomberg US Aggregate Bond indices were chosen as they are generally well recognized as an indicator or representation of the stock and bond market and include a cross section of holdings.
