Data Source: Astoria Portfolio Advisors, Orion, Fundpeak, and TopSheets. Data as of March 28, 2024. The performance is based on the composite performance for all accounts invested in the High Growth Portfolio. Please see the disclaimers below for more details regarding performance calculations. Growth of $10,000 shown in the chart represents the cumulative total return of the Astoria Portfolio composite since inception, net of fees. Investment return and principal value of an investment with Astoria Portfolios will fluctuate so that an investor's investment when redeemed may be worth more or less than their original cost. All risk/return statistics shown are calculated on an annualized basis since inception aside from Correlation, Beta, and R Square. The benchmark is used as a reference data set for the calculation of beta. Portfolio Yield is calculated on a trailing twelve months basis. For trailing returns, YTD and cumulative numbers are not annualized. All other numbers are annualized. As with any investment strategy, there is a potential for profit as well as the possibility of loss. Net Returns incorporate 50bps annualized management fee. The benchmark for the High Growth Portfolio is 100% Russell 1000 Growth Index and is rebalanced monthly. Since inception refers to September 2020.

This information does not address individual situations and should not be construed or viewed as any typed of individual or group recommendation.

The performance represents the composite performance for accounts invested in the High Growth Portfolio. The composite performance is shown net of the model advisory fee of 0.50% charged by Astoria Portfolio Advisors. The composite performance results are net of Astoria Portfolio Advisors' fee and does not include any additional advisory fees charged by advisors employing Astoria's models.

Any additional fees charged by an advisor will reduce an investor's return. Performance results shown include the reinvestment of dividends and interest on cash balances where applicable. The data used to calculate the model performance was obtained from sources deemed reliable and then organized and presented by Astoria Portfolio Advisors. The performance calculations have not been audited by any third party. Actual performance of client portfolios may differ materially due to the timing related to additional client deposits or withdrawals and the actual deployment and investment of a client portfolio, the reinvestment of dividends, the length of time various positions are held, the client's objectives and restrictions, and fees and expenses incurred by any specific individual portfolio.

Benchmark: The High Growth Portfolio performance results shown are compared to the performance of 100% Russell 1000 Growth Index. The index results do not reflect fees and expenses and you typically cannot invest in an index. Prior to July 2021, the benchmark was 100% iShares Russell 1000 Growth ETF (IWF). Return Comparison: The Russell 1000 Growth Index was chosen as it is generally well recognized as an indicator or representation of US stocks with above average growth expectations.
